AT 0315Z AT 16,000 FEET. 11. CAPT JOHN D. MOFF DIOICI. I WENT TO THE
LOCATION OF THE SIGHTINGS 24 HOURS AFTER THE OBSERVATIONS. THE

PAGE 3 REMAIN 3 4 UNCLAS

WEATHER CONDITIONS DURING MY VISIT WERE ALMOST IDENTICAL AS AT THE
SIGHTING DATE. THE AREA WAS VERY DARK AND MANY STARS WERE VISIBLE.
PLUS THE MILKY WAY I OBSERVED NO SHOOTING STARS OR ANYTHING ELSE
TO EXPLAIN THE SIGHTING. NO WEATHER BALLOONS WERE RELEASED IN THE
AREA, DURING THAT PERIOD OF TIME. FWD [REDACTED] REPORTED IT WAS TOO FAST
FOR AN AIR PLANE. AND THE OBJECTS WERE NOT METEORS AS BOTH HAD
SEEN THEM BEFORE. MOUNTAIN HOME AFB WEATHER DOES NOT REPORT ANY
METEOROLOGICAL DATA OTHER THAN THE TEMPERATURE INVERSION WHICH
COULD ACCOUNT FOR THIS OCCURRENCE. FURTHER INVESTIGATION OF THIS
INCIDENT APPEARS BEYOND 9344 DIOI CAPABILITIES. THIS CONCLUDES
OUR INVESTIGATION UNLESS OTHER WISE DIRECTED.
